Cullen Stephenson
Washington Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Mr. Stephenson:

This letter is in response to Mr. Timothy Nord's letter of November 18, 1988 regarding the land owner's signature for Chemical Processors' Pier 91 Part B permit application. Section K, page K2 of the application contains the Owner Certification as required by WAC 173-303-810 (12) and (13).

In our phone conversation of November 21, 1988, you have indicated that an owner certification for the Part A portion of the permit application was also required. Consequently, Chemical Processors, Inc. is currently contacting the Port of Seattle to obtain this additional signature on the Part A. The signature page will be sent to you as soon as the Port of Seattle responds to our additional request for their signature.

Sincerely,

Susan Donahue
Environmental Programs Manager
